## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the School Board and Citizens of Lee:*

Your co-operation has been much appreciated during the past year. It takes a deal of pains to get a generation of children up, washed, dressed and fed, taught in school, supervised at play, cared for in health and guided in thought, pointed to heaven, and put to bed every day. Parents who maintain constant and regular attendance of their children, excepting only for a day or two when there are heavy colds or signs of communicable disease, are helping in no small measure to assure the educational success of the pupils. The help of the church and community organizations in the dental clinic was also of great value. The local Grange entertained most acceptably the Institute of Rural Teachers held in the Town Hall in the autumn. Many of the visitors inspected our school buildings and grounds.

The School District has long maintained the purpose and spirit of the new Municipal Budget Act. In February an "Estimate" is prepared, showing expected expenditures and income for the year beginning July 1 following. This estimate is submitted to the District Meeting. In October, when the exact expense and income for the current year is more accurately known, another "Budget" is prepared, which must be approved by the State Board of Education as the basis of State aid for the succeeding year and must be followed by the School Board without deviation unless necessary changes are allowed by the State Board. It is gratifying to note that while the State median cost per pupil of the elementary schools increased last year \$4.47 (due doubtless to rising costs of materials and restoration of salaries), yet in Lee the same item was reduced by

\$11.93 so that it is now \$61.41, the lowest of any separate elementary schools in the union.

All three of our schools are now provided with good wells of water in the schoolyards, with pumps designed so as not to freeze in winter. If we now could have some good playground apparatus, I should be proud to have signs on the schoolhouses identifying them to passers-by as belonging to a wide-awake and progressive town. A combination of apparatus 35 feet long, 10 feet high, and 25 feet wide, made of 2-inch and 1½ inch pipe framework, including 20-foot slide with steps, 2 swings, hanging rings, climbing ladder, horizontal bar, and seesaw, could be purchased and installed for \$150. In my experience, it does not pay to spend any money for light or ill-designed makeshifts. Any school-yard is as incomplete without such apparatus as would be a schoolhouse without a roof.

The usual list of schools follows:

<i>School</i>	<i>Teacher</i>	<i>Membership</i>
North .....	Mrs. Ruth K. Munroe.....	20
Center .....	Mrs. Mina M. Sanders .....	9
South .....	Mrs. Euna W. Keniston.....	19
